LinkedIn | GitHub

Location: Greater Noida, India

PROFESSIONAL SUMMARY

Computer Science student with strong foundation in Data Science, Machine Learning, and AI. Proficient in Python, C, and modern web technologies with hands-on experience in building production-ready applications. Passionate about leveraging cutting-edge technologies to solve complex problems and drive innovation.

EDUCATION

Greater Noida College of Technology

Greater Noida, India

Bachelor of Technology in Computer Science(AI)

Sep 2023 – Apr 2027

- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Management, Web Development
- Focus Areas: Artificial Intelligence, Data Science, Software Engineering

RDIC Faizganj

Faizganj, India

Higher Secondary Certificate (12th Grade)

Graduated 2023

R.R.K. School Chandausi

Chandausi, India

Secondary School Certificate (10th Grade)

Graduated 2021

TECHNICAL SKILLS

Programming Languages: Python, C, JavaScript, SQL, HTML5, CSS3

Data Science & ML: Pandas, NumPy, Scikit-learn, TensorFlow, Machine Learning Algorithms, Data Analysis

Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Programming, System Design

Web Development: HTML, CSS, JavaScript, Responsive Design, Frontend Development

Database: SQL, Database Design, Query Optimization

Tools & Technologies: Git, GitHub, VS Code, Google Colab

Core Competencies: Problem Solving, Algorithm Design, Statistical Analysis, Model Development, Code Optimization

PROJECTS

Face Recognition Attendance System | *Python, OpenCV, Machine Learning, Computer Vision*

- Engineered an automated attendance system using facial recognition technology, eliminating manual attendance tracking and reducing processing time by 90%
- Implemented real-time face detection and recognition using OpenCV and deep learning algorithms with 95%+ accuracy
- Designed and developed a scalable database architecture to store and manage student attendance records efficiently
- Built user-friendly interface for administrators to view attendance reports and analytics with data visualization
- Integrated error handling and edge case management for varying lighting conditions and multiple face detection
- **GitHub:** github.com/Aryan66831/face-recognition-attendance

Personal Portfolio Website | *HTML, CSS, JavaScript, Responsive Design*

- Developed a fully responsive personal portfolio website showcasing projects, skills, and professional experience
- Implemented modern UI/UX principles with smooth animations and interactive elements for enhanced user engagement
- Optimized website performance achieving 90+ Google Lighthouse scores across all metrics (Performance, Accessibility, SEO)
- Utilized CSS Grid and Flexbox for responsive layouts ensuring seamless experience across devices
- Integrated contact form with form validation and deployed using modern web hosting platforms

ACHIEVEMENTS & CERTIFICATIONS

Data Structures & Algorithms: Strong problem-solving skills with focus on optimized solutions and time complexity

Open Source Contribution: Active contributor on GitHub with multiple public repositories demonstrating coding proficiency

Technical Projects: Successfully delivered end-to-end projects from ideation to deployment

Hackathon Participant: Participated in college hackathon program, collaborating with teams to develop innovative solutions under time constraints and demonstrating rapid prototyping skills
